### FEW CHANGES IN PRICES IN THE CITY MARKETS

But few changes are to be noted i prices of foodstuffs in the markets of the city as compared with those of last week. The most interesting change to housekeepers is in eggs, the high grades of which are slightly lower than a week ago. The market benches today a week ago. The market benches today were all well supplied with fruits, vegetables, meats and poultry, and the dealers report a good demand. The Lenten season has made the demand for sea food very strong, but the few changes shown in the market are to the advantage of the buyer, halibut selling at 29 cents a pound this week, against 25 cents, and herring at 4 cents each instead of 6 cents. Except for these changes the fish market is the same today as it was a week ago.

The best grades of eggs—those guaranteed to be strictly fresh—are today quoted at 38 to 40 cents a dozen, and eggs good enough for ordinary use can be bought at from 32 to 35 cents a dozen. In the meat market lamb, pork chops and ham and smoked hams are from a cent to 2 cents cheaper on the pound for the less choice cuts. The only change in the produce market to be noted is on sweet peppers, which have jumped to 50 cents a dozen and are scarce.

#### JITNEY BUS BUSINESS STAYED FOR A DECISION

Washington will not have a jitney bus service until the local public utilities commission gives the service a status either as a hacking proposition

status either as a hacking proposition or as a public utility.

A statement issued by the jitney association declared that the service will not start March 1, as planned, "nor will it start or attempt to start until the commission has thoroughly defined its position as to where the jitney bus will be classed."

The statement further says that Andrew I. Hickey, secretary of the Washington Jitney Bus Association, at a meeting yesterday stated that "as far as he was able to ascertain the utilities commission has not sought nor obtained the opinion of Corporation ounsel Syme in the matter.

Issue Should Be Settled Now.

Issue Should Be Settled Now.

There is one time only to settle this matter, and that is now, and not wait until the jitney bus business becomes established, as it is bound to be established, properly, and then permit the utilities corporation or its counsel to make the discovery that it is a com-mon carrier and not a hacking busi-ness, which would mean the loss of a considerable amount of money to the members of the Washington Jitney Bus Association.
"The interest of the jitney bus business demands that no great effort be made at present."

#### Secretary Hickey's Plan.

Mr. Hickey announced that he is working out a plan whereby the jitney bus must either be accepted in Washington, or dismissed from con-

Washington, or dismissed from consideration.

"There will be no half way about it."

Mr. Hickey says. "There are enough people interested, in Washington, in the jitney bus business to cut quite a figure whenever they choose to cut loose and make a few demonds in kepping with their right under the present regulations, and in accordance with the law."
